WHAT'S IT FOR?

As well as an opportunity to make new friends, focus on a hobby or add breadth to your studies, our Enrichment programme is designed with your end goals in mind.

Your Enrichment activity will be integrated into our Navigate platform, making up your own Electronic Curriculum Vitae (CV) that demonstrates some of the skills and experiences, including work experience, you have been involved in during your time at College. This can then be taken with you once you leave College and is very useful for university applications, applying for employment or volunteering activities.

Attendance at Enrichment sessions will contribute to your overall attendance figures. Enrichment is a compulsory part of a your timetable on the following programmes:

- All students studying the first year of an A Level programme (1.5 hours a week enrichment)
- All Foundation and Extended Diploma students (BTEC, OCR and UAL) who choose to pick an option (1.5 hours a week Enrichment). If no option is chosen an additional 1.5 hours directed study session will be added to curriculums (2 sessions per week).

On all other programmes, you are encouraged to add an Enrichment activity if it fits around your timetable. If an option doesn't fit, drop-in Health, Wellbeing and Sport Sessions (HWS) are available as an alternative.

HOW DO I APPLY?

Your chosen Enrichment activity is integrated into your timetable and designed to fit around your main programme of study.

You should select one preferred Enrichment activity from the drop-down menu at the application stage via our application portal on the College website. If you do not choose an Enrichment option, you will be assigned to a study skills group.

Further discussions on your chosen Enrichment activity will take place at interview and will be linked to your career aspirations, engagement, and wellbeing.

Develop skills that underpin success in education and future career ambitions.

03 EXTRA CURRICULAR ENRICHMENT

Extra Curricular Enrichment options are wide and varied. While some focus on academic attainment such as our Study Skills and Extended Research Project (EPQ) options, other opportunities exist to develop new skills and to get involved in areas outside of the curriculum.

The prestigious Duke of Edinburgh's Award is much desired by universities and employers alike and recognises the effort, newly acquired skills, confidence and resilience you will have learnt along the way.

- Construction & Automotive Essential Skills for Life
- Creative Writing & Journalism
- Duke of Edinburgh's Award
- Extended Research Project (EPQ)
- Greener & Fairer Futures
- International Film Club
- Introduction to Hospitality & Eating Well on a Budget
- Moving Image Techniques
- Oxbridge Support
- Photographic Techniques
- Study Skills
- Volunteering

04 RECREATIONAL SPORT & GAMES

- Board Games & Chess
- Gym
- Multi-Sports
- Recreational Football
- Yoga

Our Recreational Enrichment provides an option to play sports or games each week but without having to commit to an Academy, play competitively or travel to fixtures.

Many of these activities are also available through our drop-in Health, Wellbeing and Sport programme.

Promoting physical and mental health and wellbeing.

CLUBS, GROUPS & EXTRAS

Options range from joining our Student Council, where you can organise events and make a positive contribution to the student experience, to joining the numerous travel opportunities available throughout the term. While most trips are associated with the curriculum, some are more widely available across the College.

- Equality, Diversity & Inclusion Group
- Equestrian Group
- LGBTQ+ Group
- Faith Group
- Health, Wellbeing & Sport
- Student Council
- Travel Opportunities

Additionally our Health, Wellbeing and Sport programme is available for all to attend, during the College day and both before and after lecture times.

These drop-in sessions include a wide range of varied activities from gym sessions and spinning, to yoga and meditation. They are totally free to access and available at both Truro and Penwith campuses. Discover more on their socials: @healthwellbeingandsport

ENRICHMENT

AT TRURO & PENWITH COLLEGE

DISCOVER OUR NEW ACCELERATE PROGRAMME FOR ACADEMIC ACHIEVERS

EXCEL WITH US

ENRICHMENT FOR ALL

The Enrichment programme is at the heart of the Truro and Penwith curriculum.

It embodies the values of our College community and develops skills proven to underpin future career and academic success.

Truro and Penwith College prides itself on providing both an outstanding education and a fantastic student experience, giving the perfect platform for you to prepare for and succeed in the world of work or at university.

The Enrichment activities on offer to full-time students complement this and sit alongside our ethos of developing resilience and vigour to help you strive for and reach your highest aspirations. The programme offers something for everyone and provides opportunities for you to meet other students, develop new skills, gain confidence and resilience, keep healthy and prepare for your next steps.

Our Enrichment programme is divided into four groups and is enhanced by our Accelerate and Oxbridge programmes for academic achievers.

Choose your Enrichment from the following options:

- 01 Specialist Academies
- 02 Competitive Sport Academies
- 03 Extra Curricular Enrichment
- 04 Recreational Sport & Games

THE ACCELERATE PROGRAMME & OXBRIDGE SUPPORT

ACCELERATE PROGRAMME

Available at both Truro and Penwith, Accelerate is our bespoke STEM programme of study for academically minded A Level students with a passion for their subjects, excellent work-ethic and high ambitions towards competitive HE and university.

We recognise that success in Higher Education and university is not only about academic excellence, but also about fostering wellbeing and developing leadership and social skills that will enable you to confidently step into the world and manifest positive change in society.

Where timetabling allows, you will be taught together as an Accelerate group for some A Level STEM subjects. In addition to your choice of 3 or 4 A Level subjects, you will take part in at least one STEM based Academy to enrich your classroom learning, and you are strongly encouraged to complete an Extended Project Qualification (EPQ).

The Accelerate Programme is made up of the following elements:

*not taught in Accelerate groups

- A Levels**
Study at least two subjects:
- Biology
 - Chemistry
 - Computer Science*
 - Electronics*
 - Environmental Science*
 - Maths
 - Further Maths
 - Physics

- STEM-based Academies**
Join at least one:
- Allied Health
 - Biology
 - Chemistry
 - Computing
 - Maths
 - Medics'
 - Physics
 - STEM Research

- Super-curriculars & STEM Enrichment:**
- Outreach opportunities
 - Oxbridge support
 - Student research conference
 - Olympiads & competitions
 - EPQ
 - Talks by professionals
 - Opportunities for work experience

- Tutorials:**
- Including study skills, progress reviews, university application support and personal development.

EXCEL WITH US

OXBRIDGE SUPPORT

Entry to the Universities of Oxford and Cambridge is particularly competitive, so the College has an intensive programme to support all Oxbridge applications.

At Truro and Penwith College, you will be offered a comprehensive package to ensure that your university application is competitive and stands out when compared to that of other applicants.

This includes super-curricular and Enrichment opportunities, dedicated Oxbridge events, pre-interview tests and application support, one-to-one mentoring, and mock interviews delivered by subject specialists. (Oxbridge support events can be signed up to in addition to other Academies.)

We were very proud to see 12 of our students successful in their Oxbridge applications last year. The 12 represent success for nearly a quarter of the students who applied, placing Truro and Penwith College well over the national average success rate for independent schools and colleges.

01 SPECIALIST ACADEMIES

Improve your chances of securing a place at a selective university and enhance your employability.

Our Specialist Academies complement and add breadth to your studies. Gain the confidence to set ambitious progression and career goals while developing your technical skills in a wide range of subject areas.
