TOP COURSE HIGHLIGHTS

INDUSTRY-STANDARD FACILITIES | HIGHLY EXPERIENCED TUTORS | DEVELOP SKILLS IN LINE WITH INDUSTRY NEEDS

LEARN FROM SECTOR EXPERTS

Gain invaluable insights and hands-on experience from industry expert tutors who bring real-world knowledge and expertise to the classroom. Their guidance will help you develop the skills and confidence needed to excel in your chosen field.

ENJOY PROFESSIONAL ENVIRONMENTS

Enhance your practical abilities and gain hands-on experience that directly translates to the workplace. This apprenticeship course focuses on real-world applications, ensuring you are well-prepared to meet the demands of your chosen career.

DEVELOP SKILLS IN LINE WITH INDUSTRY NEEDS

Immerse yourself in a dynamic and supportive environment that mirrors the professional world. This apprenticeship course provides access to state-of-the-art facilities and resources, helping you to thrive and feel confident in your career journey.

WHY CHOOSE THIS COURSE?

This apprenticeship standard offers a comprehensive training programme for individuals passionate about working with wood-based materials to create and install building components. This apprenticeship focuses on developing skills in setting out, marking out, and manufacturing architectural products such as doors, windows, staircases, and associated ironmongery. Apprentices will gain hands-on experience in a workshop environment, working closely with architects, designers, and other construction professionals to bring designs to life. The programme emphasises safety, precision, and quality, preparing apprentices for a rewarding career in the construction industry.

WHAT WILL I LEARN?

Knowledge This apprenticeship equips learners with essential knowledge in several key areas. Apprentices will understand the principles of health, safety, and welfare, ensuring a safe working environment. They will learn to interpret technical drawings and specifications, enabling precise setting out and marking out of materials. The course covers the properties and uses of wood-based materials, as well as the techniques for manufacturing and assembling architectural products like doors, windows, and staircases. Additionally, apprentices will gain insights into effective communication and collaboration with architects, designers, and other construction professionals to meet client expectations. **Skills** This apprenticeship develops a range of practical skills essential for the trade. Apprentices will master the techniques of

setting out and marking out wood-based materials, ensuring precision in their work. They will learn to operate various woodworking machinery and tools safely and effectively. The apprenticeship covers the manufacturing and assembly of architectural products such as doors, windows, and staircases, focusing on quality and accuracy. Additionally, apprentices will hone their ability to install these components, working collaboratively with other construction professionals to meet project specifications and client expectation. **Behaviours** Apprentices will prioritise health and safety, demonstrate reliability and punctuality, and maintain a positive attitude. Effective communication and teamwork are essential, along with attention to detail and a commitment to high-quality work. **Typical Duties that an Apprentice will carry out in the workplace:**

- Setting out and marking out wood-based materials according to technical drawings and specifications.
- Manufacturing architectural products such as doors, windows, staircases, and associated ironmongery.
- Operating woodworking machinery and tools safely and effectively.
- Collaborating with architects, designers, and other construction professionals to ensure the final product meets client expectations.

WHERE WILL IT TAKE ME?

Completing the Architectural Joiner Apprenticeship opens up a range of exciting career opportunities. Apprentices can progress to roles such as skilled joiners, site carpenters, or bench joiners, working on bespoke projects or large-scale construction. Apprentices can also progress to the Level 3 Craft Architectural Joiner Apprenticeship Standard with Truro & Penwith College.
