WHY CHOOSE THIS COURSE?

Registered nurses work in the public, independent and voluntary sector. Registered nurses are a statutorily regulated profession and the standards for proficiency are set by the Nursing and Midwifery Council (NMC) and successful completion of this apprenticeship will meet the education requirements to see registration with the NMC.

The broad purpose of the occupation is to play a vital role in providing, leading, coordinating and evaluating care that is compassionate, evidence based, and person centred. They are accountable for their own actions and those who they delegate to and must be able to work autonomously, or as an equal partner with a range of other professionals. They provide nursing care for people across the whole lifespan who could have complex and concurrent mental, physical, cognitive and behavioural care needs and for people at the end of their life.

WHAT WILL I LEARN?

The programme is broken down into modules of delivery which are covered within the workplace with your employer and during your time at college with your tutor. The curriculum is divided into a few categories, an example of what you will be covering is detailed below:
