REAL-LIFE SKILLS | IMPRESS UNIVERSITIES | SUPPORT OTHER SUBJECTS | GAIN PROBLEM SOLVING SKILLS

WHY CHOOSE THIS COURSE?

Mathematical skills are becoming increasingly important in the workplace and in higher education. Studying Core Maths will help you to keep up these essential skills. Core Maths has been designed to maintain and develop real-life mathematical skills. The course is not just purely theoretical or abstract, it can be applied on a day-to-day basis, whether in work, study, or life in general. Core Maths can help with other subjects, in particular with sciences, geography, business studies, economics, psychology and engineering. It includes a financial element and will help you understand real life finances such as tax, national insurance, and mortgages.

WHAT WILL I LEARN?

Core Maths builds upon and strengthens existing skills developed during the GCSE Maths course. There is a sharp focus on problem-solving and using and applying mathematics to solve problems relevant to students' everyday lives. This includes financial applications of mathematics such as tax, national insurance and mortgages. Fermi estimations is another popular module.

WHERE WILL IT TAKE ME?

A qualification in Core Maths is valued by many universities and employers. The skills developed in Mathematics are increasingly important in the workplace and in Higher Education. Universities, Colleges and employers have welcomed the new Core Maths qualification as students will be better equipped with the skills required for many degree courses and employment.

ENTRY REQUIREMENTS

Grade 5 or above at GCSE
