BTEC LEVEL 3 NATIONAL DIPLOMA IN ANIMAL MANAGEMENT

Level 3 · Extended Diploma · Penwith College

WHY CHOOSE THIS COURSE?

Are you passionate about marine life, conservation and protecting our coastal environment? This exciting Level 3 programme combines animal management with marine conservation, giving you the opportunity to explore Cornwall's unique marine ecosystems while developing the practical skills and scientific knowledge needed for careers within the growing blue economy.

Based in one of the UK's most important coastal regions, you'll study marine species, habitats and conservation issues through a range of classroom, practical and field-based experiences. You'll also gain valuable industry insight through work placements and enrichment activities with local marine organisations.

WHAT WILL I LEARN?

You'll study the BTEC Level 3 Diploma in Animal Management, delivered through a marine conservation lens. Topics may include:

- Animal Biology
- Animal Welfare and Ethics environments
- Practical Animal Husbandry
- Animal Behaviour
- Animal Health and Diseases
- Work Experience
- Research Project
- Aquatic Health and Husbandry
- Wildlife Ecology and Conservation Management
- Human and Animal Interaction

WHERE WILL IT TAKE ME?

This course will provide you with the scientific knowledge, technical skills and practical experience needed to progress into higher education or into occupations such as:

- Sustainable Fisheries
- Marine Conservation
- Coastal Tourism
- Environmental Monitoring
- Marine Renewable Energy

Importantly, this course develops transferable skills that are equally valued across the wider environmental, sustainability and land management sectors, providing you with a broad range of employment and progression opportunities.

ENTRY REQUIREMENTS

Four GCSEs at a Grade 4 or above to include English and/or Maths.
