WHY CHOOSE THIS COURSE?

The music industry is one of the driving forces behind the British creative industries. It provides some of the most diverse career opportunities and creative challenges, plus it is an enjoyable, engaging subject. If you enjoy creating, recording, playing music live with technology, working with other creative minded people on interesting projects, whilst making a living from all of these, then Music Technology could be the option for you. Music Technology will open your eyes, and ears, to the possibilities of what can be done with sound. It will provide you with insights and experiences into the roles of a music producer, sound engineer, composer, sound designer, music technology performer, commercial industry executive and journalist.

WHAT WILL I LEARN?

We focus our learning on current and future industry positions, whilst respecting the heritage of the music industry. You will grow from small industry-based scenarios to full-on industry experiences that will focus on developing the skills, techniques and attitudes a professional would require to thrive in a competitive and creative industry. You will learn how a professional in the music industry must adapt quickly to the needs of any creative situation, building your resilience not only to enable you to cope with current industry requirements but flourish in the music industry of the future.

WHERE WILL IT TAKE ME?

Upon completion of the course, you will be able to progress onto an Apprenticeship, gain relevant employment in the

music industry at an entry level position or utilise professional portfolios in a freelance capacity. Learners can also progress onto a variety of degree courses offered by universities or specialist Music Schools. The different progression routes and opportunities are explored during your tutorial sessions extensively where we establish which route fits best for your needs.
