C&G LEVEL 2 DIPLOMA IN PLASTERING

Level 2 · Other · Truro College

TOP COURSE HIGHLIGHTS

SOLID ROUTE | HANDS ON | ENERGETIC | UK SKILLS GAP

LEARN FROM SECTOR EXPERTS

You will be taught by staff with extensive experience who will advance your knowledge and skills to meet the expectations of the construction industry.

DEVELOP WORK-RELATED SKILLS

During your tutorial programme, you will also develop personal and work-related skills which will help prepare you for full-time work after you have completed your full-time training in college.

ENJOY PROFESSIONAL SURROUNDINGS

Our new Construction areas are kitted out with the latest industry-standard equipment and resources. We enjoy partnerships with some of the UK's largest industry suppliers, meaning students get to experience trades as they would in the workplace.

WHY CHOOSE THIS COURSE?

Truro and Penwith College have excellent working environments where you will learn and develop your practical skills as well as the most up to date professional tools and equipment to make your study here as close to a real working environment as possible. The course is designed to prepare students to be 'work ready', creating a 'real world' plastering experience delivered by passionate individuals with many years' experience in the trade. The lecturers know this industry and are well equipped to advise and deliver students onto the career pathway they desire; completion of a Plastering Diploma can be the doorway to many other routes within the construction profession.

To bolster progression the College works with local employers who contribute to the knowledge and delivery of this training. Employers will provide demonstrations and talks on the industry and where possible work placements will also be provided.

WHAT WILL I LEARN?

You will study units such as: principles of building construction, information and communication; internal plastering, drylining, fixing sheet materials; applying setting coats; and fibrous plastering. You will learn how to use different types of plaster, render, plaster board, all traditional techniques needed to start a career in the trade. We have all the professional tools and equipment and you will develop your skills in sand and lime rendering, scratch coats and float coats and the use of lightweight plaster and setting coats, as well as plaster boarding, fibrous moulding and much more.

WHERE WILL IT TAKE ME?

This qualification prepares you with the knowledge and practical skills required to become a skilled plasterer. This means

you will be able to complete specialist, complex tasks, either on a construction site or commercial or domestic premises. You may also become self-employed working as a sub-contractor as this is a popular route within industry. Options to study further would include routes such as progression to a higher level qualification such as a Level 3 Diploma in Plastering, into an apprenticeship or on to a T Level.

ENTRY REQUIREMENTS

You need to have achieved a GCSE Grade 2 in English & Maths, you must have a keen interest in construction and a good work ethic. You must be able to work alone and as part of a team and to demonstrate commitment to the course.
