C&G LEVEL 3 DIPLOMA IN SITE CARPENTRY

The role of the Site Carpenter is to accurately and consistently work with timber-based products to construct site carpentry products and projects. The job role requires accuracy and attention to detail while producing work to industrial standards.

Level 3 · Other · Penwith College

TOP COURSE HIGHLIGHTS

SMALL CLASS SIZES | EXPERIENCED TUTORS | INDUSTRY-STANDARD FACILITIES | GREAT LINKS WITH EMPLOYERS

LEARN FROM SECTOR EXPERTS

You will be taught by staff with extensive experience who have all been tradespeople themselves. You will learn to advance your knowledge and skills to meet the expectations of the job role of Site Carpenter and the construction industry.

DEVELOP WORK-RELATED SKILLS

During your programme, you will also develop personal and work-related skills which will prepare you for progression to further studies or full-time work, following completion of your course.

ENJOY PROFESSIONAL SURROUNDINGS

Our Construction facilities are equipped with the latest industry-standard carpentry and joinery equipment and resources. We enjoy partnerships with many large suppliers and employers and as a result students will experience, apply and develop industry-standard site carpentry skills in a realistic working environment.

WHY CHOOSE THIS COURSE?

Site carpenters work inside and outside of buildings repairing, renewing, and replacing Carpentry and Joinery components. This course is the next step to a career as a Site Carpenter, it builds on what was studied at Level 2 Site Carpentry. You will gain a further, advanced understanding of the construction industry and have an opportunity to apply site carpentry skills in a practical and realistic way. You will follow a programme of study that enables progression to further courses and employment within the construction industry. You will gain confidence by developing independent learning skills, you will also learn how carpentry and joinery activities are carried out safely and how they contribute to our built environment.

WHAT WILL I LEARN?

You will be taught Site Carpentry through a blended learning approach incorporating taught practical and theory sessions, workplace learning, assessments, and online learning. One-to-one support, tuition and advice are from our team of experienced and qualified tutors, who will be integral to your programme of study. You will be taught in our first-class workshops, classrooms, and IT suites, and will quickly start to build additional carpentry items and structures on your own and in small teams. Of course, it's not all about practical skills, employers need enthusiastic and engaged employees to meet the demands of the construction industry and to help their business grow. You will therefore need to further your knowledge of how the construction industry and other trades work together and operate. This will give you the very best opportunity to progress and forge a successful and rewarding career in the construction industry.

WHERE WILL IT TAKE ME?

Upon successful completion of this course, you will be able to progress onto an HNC/HND in construction. Alternatively, you could progress onto an Apprenticeship in Carpentry and Joinery. There are many opportunities for skilled Carpenters and Joiners in the building industry, working for large and small companies or in self-employment.

Further study will enable you to work towards more senior roles within the construction industry such as a working Foreperson, Assistant Site Manager, Site Manager, Quantity Surveyor, Architect, Clerk of Works or Building Surveyor.

ENTRY REQUIREMENTS

A grade 2 or equivalent in GCSE Maths and English language or literature is required, however, should you not achieve this you should still apply as each applicant will be invited to attend an interview with the course manager. All successful candidates will gain a place on the programme. A keen interest in the role of the site carpenter will be advantageous in pursuing this rewarding and well-paid career.
