LEVEL 2 DIPLOMA IN MEDIA PRODUCTION & TECHNOLOGY

This course allows you to study a core of Media and will also include Functional Skills/GCSE English and Maths and an OCN Work Skills qualification. This one-year course is focused on progression, either to further specialised study at Level 3, PPD or into employment.

Level 2 · Progression · Penwith College

TOP COURSE HIGHLIGHTS

FUTUREPROOF CREATIVE SKILLS | SMALL CLASS SIZES | EXCELLENT ACADEMIC & TECHNICAL SUPPORT

PREPARE FOR PROGRESSION

This course is designed to give you every possible chance to build the qualification, skills and competencies required to progress on to higher level college study that could then lead to a successful future in the creative industries.

DEVELOP SKILLS

Develop skills that are essential for the workplace. These skills include team working; working to a set brief; working to deadlines; presenting information effectively and accurately completing administrative tasks and processes.

CREATIVE & DEDICATED STAFF

The teaching team are friendly, supportive, and well-qualified; they offer high level pastoral, academic and technical support to help you realise your creative potential.

WHY CHOOSE THIS COURSE?

Throughout the world the creative industries are booming. In the UK alone they contribute more than £100 billion to the economy and employ more than 2 million people. As working practices and technologies evolve, jobs in this sector will be some of the most resilient in the face of increasing automation. This course will help you develop the skills and competencies demanded by employers in the creative industries. Through your studies you will learn to be adaptable in the face of change, be a collaborative team player, be a confident communicator, be creative and innovative, be an entrepreneurial problem-solver, develop high-level technical skills (traditional and digital) and be motivated and self-directed.

WHAT WILL I LEARN?

The UAL Level 2 Award in Creative Media Production & Technology course will introduce you to the basics of digital imaging and media production. The course is designed to develop basic visual exploration, inspire simple creative practice, promote independent study and develop elementary skills in research, planning and time management. The course will provide you with an introduction to a broad range of creative and technical skills in media production and photography. The qualification has been designed to provide you with a sound base of skills, knowledge and understanding which will enhance your self-confidence and impart an understanding of the career demands and opportunities within the exciting and dynamic creative media industries. During the course you will learn digital photographic techniques in addition to video production and editing skills. Emphasis is placed on the development of your own practice and aspirations.

WHERE WILL IT TAKE ME?

This course will support you to progress to a range of further education courses such as UAL Level 3, PPD, Apprenticeships or employment. This qualification will provide the first steps in preparing you for a wide range of careers in the creative industries, including employment opportunities in areas such as photography and media production.

ENTRY REQUIREMENTS

There are no strict formal entry requirements for this course, although we would expect you to have GCSEs in the 1-3 grade range. Informally we would expect enthusiasm, a willingness to get hands-on and an ability to work productively and collaboratively with others.
