VTCT LEVEL 2 AWARD IN SKIN CANCER AWARENESS

Level 2 · Other · Truro College

PART-TIME INFORMATION

This course has been designed to enable beauty therapists, complementary therapists, nail technicians, sports massage therapists, fitness instructors, hairdressers and barbers to recognise the signs and symptoms of skin cancer. You will be able to alert clients to changes in their skin and sign-post clients to public information and their GP. Professionals in hair, beauty and wellbeing industries work closely with clients and in many cases have sight of areas of skin which may not be easily visible to the client.

Public awareness of skin cancer has never been higher and yet skin cancer remains the fastest growing cancer in the UK, especially amongst young people. The chances of a positive outcome can be dramatically increased with early diagnosis. This qualification will enable hair, beauty and wellbeing professionals to gain the appropriate knowledge and communication skills required to provide non-diagnostic, professional advice and information to clients in a discrete, empathetic and confidential manner.
