

Children, Young People & Adults with Care & Support Needs can be abused physically, sexually, emotionally or through neglect. The concerns that you have may make up part of a bigger picture which could help to prevent serious harm to a child. Giving families help at an early stage can prevent abuse and neglect.

This leaflet is the first of 3 levels of training for people who work in either a paid or voluntary role with children, young people and vulnerable adults in Cornwall. If they have not already done so, ask your employer to talk through this leaflet with you and tell you who to contact within your organisation if you have concerns. If you think you need further training, talk to the person who gave you this leaflet or to your manager.

REMEMBER

- It doesn't matter if you are a paid worker, a volunteer or a member of the community, you have a responsibility to act if you are worried about a child, young person or adult with care and support needs.
- Each agency will have someone who has a responsibility for safeguarding issues - they have had training to know what to do next.
- It is not your responsibility to investigate safeguarding matters but you should tell the appropriate person within your organisation. It will be this person's job to decide whether to pass your concerns on.
